

2914 Route 209, Saint-Antoine-Abbé, Qc, J0S 1N0. 514-826-4723

RULES FOR VISITORS WITH LOTS

These regulations are specific to visitors, but are only complete with the addition of the General Regulations.

A. Layout

1. Only motorized vehicles, trailers, tent-trailers and tents are permitted on a site. Each site may accommodate only one household; two or more families may not occupy the same site.
2. All artificial decorative elements are prohibited: fences, signs, sculptures, objects, chains, numbers, decorative lights, etc.
3. Clotheslines are tolerated, provided they meet the following two conditions: they must be located in an inconspicuous place and be less than 1 metre long.
4. Cars must be parked in the designated areas.
5. Nothing may be attached to trees without prior authorization.

B. Neighborhood

1. In order to avoid dazzling neighbors and to preserve its natural character, exterior lighting on your private property must be kept to a minimum. A maximum of two low-lumen lamps (40 watts max.) are permitted on members' pitches, with the exception of those integrated into trailers or verandas. Solar-powered ground lamps are accepted.

2. When you leave temporarily, low light may be tolerated in your gazebo.

When leaving Pommerie or sleeping, turn off all lights in your gazebo. When entertaining friends, use appropriate lighting. Automatic lights are not permitted.

3. Radios and televisions are permitted inside the trailer or tent-trailer, as long as the sound is not audible from the neighborhood. The use of musical instruments is permitted on the site before 11 p.m., as long as the noise does not affect neighbors and the frequency of use is

reasonable. After 11 p.m., music may be played at the lake light until midnight. Exceptions will be made for discotheque evenings and certain parties that are part of the Pommerie tradition.

4. Out of respect for your neighbors, no fires may be lit before 9am. All fires must be extinguished before going to bed. Furthermore, for environmental reasons, only the burning of dry natural wood is permitted. The burning of leaves, treated wood and any form of waste is prohibited.
